INTERNAL — PRINT & LAMINATE AT FRONT DESK · V1.0.4 · 2026-06-28

We start with what you want, but we confirm with labs and a physician review before any prescription. The \$79 Wellness Assessment is our front door for hormones, weight loss, and peptides — IV Lounge is walk-in without a consult.

FRONT DOOR \$79 Wellness Assessment	MEMBER DISCOUNT 20% off all à la carte	PAYMENT Card · Klarna · Affirm · superbills on request	LANE A IV Lounge — walk-in, no consult	LANE B Hormones · GLP-1 · peptides — consult-gated
--	---	---	---	---

LANE A — IV LOUNGE (WALK-IN) 1. Patient walks in or books IV Lounge online. 2. IV screening edge function runs hard blocks (CHF, pregnancy, G6PD for high-dose vitamin C, etc.). 3. Select drip or push; charge at checkout (signature drips \$139–\$169; NAD+ \$50 booster; glutathione and other pushes). 4. Members receive 20% off IV add-ons beyond the 2 included drips on ELEVATED IV. 5. Soft mention \$79 Wellness Assessment only if hormone/weight interest surfaces.	LANE B — CONSULT-GATED 1. Patient pays \$79 Wellness Assessment via Stripe before or at booking. 2. In-person visit: history, vitals, goal confirmation. 3. Order goal-appropriate lab panel; draw same visit when possible. 4. Run CDS assessment in provider chart (staff) → physician review (prescriber only). 5. Results call: enroll program, collect consents, schedule RN teaching. 6. Never promise a specific medication before labs and physician sign-off.

DO SAY

- "Our ELEVATED programs bundle your medication, RN check-ins, quarterly labs, and messaging — one price."
- "Every new patient starts with a \$79 Wellness Assessment unless they're IV walk-in only."
- "Active members get 20% off à la carte — IV, peptides, extra labs."
- "We are cash-pay; we can provide itemized receipts and superbills on request."
- "IV Lounge is walk-in — no consult required for drips and pushes."

NEVER SAY / OFFER

- "Plus pharmacy costs" or "medication billed separately" on TRT/HRT/GLP-1.
- Promise a specific drug or dose before labs + physician review.
- Offer ketamine, Spravato, injectable TRT, anastrozole, HCG, or pellets.
- Advertise or lead with retatrutide — physician-gated only.
- Standalone NAD+ infusion or peptide NAD+ — NAD+ is the \$50 IV booster only.
