INTERNAL — MASTER STAFF FORMULARY & OPERATIONS REFERENCE · V2.1.0 · 2026-06-28

We start with what you want, but we confirm with labs and a physician review before any prescription. The \$79 Wellness Assessment is our front door for hormones, weight loss, and peptides — IV Lounge is walk-in without a consult.

Lane A — IV Lounge (walk-in)

- 1. Patient walks in or books IV Lounge online.
- 2. IV screening edge function runs hard blocks (CHF, pregnancy, G6PD for high-dose vitamin C, etc.).
- 3. Select drip or push; charge at checkout (signature drips \$139–\$169; NAD+ \$50 booster; glutathione and other pushes).
- 4. Members receive 20% off IV add-ons beyond the 2 included drips on ELEVATED IV.
- 5. Soft mention \$79 Wellness Assessment only if hormone/weight interest surfaces.

Lane B — Consult-gated (Rx · peptides · hormones)

- 1. Patient pays \$79 Wellness Assessment via Stripe before or at booking.
- 2. In-person visit: history, vitals, goal confirmation.
- 3. Order goal-appropriate lab panel; draw same visit when possible.
- 4. Run CDS assessment in provider chart (staff) → physician review (prescriber only).
- 5. Results call: enroll program, collect consents, schedule RN teaching.
- 6. Never promise a specific medication before labs and physician sign-off.

PATIENT JOURNEY (9 STEPS)

1	Arrival — Warm welcome, identify intent	Front desk
2	Counsel & discover — Educate on EHA services; no price guessing	Kristen / Caroline
3	Wellness Assessment — Charge \$79; intake + lane lock	Kristen + RN
4	Labs ordered & drawn — Correct panel, correct charge	Caroline
5	Provider review — Clinical decision within 5–7 days	Provider MD
6	Program enrollment — Stripe subscription + consents	Kristen
7	Prescribe & ship — Vendor routing ALGO-003	Provider + Kristen
8	Follow-up cadence — RN check-ins, quarterly labs	Caroline + Kristen
9	Retain & grow — Verify billing + ethical upsell	All staff

QUICK REFERENCE

- **Front door:** \$79 Wellness Assessment
- **Member discount:** 20% off all à la carte
- **Payment:** Card · Klarna · Affirm · superbills on request
- **Lane A:** IV Lounge — walk-in, no consult
- **Lane B:** Hormones · GLP-1 · peptides — consult-gated

Serve TRT + weight loss + peptides — one care bundle, medication add-ons, à la carte peptides

Three layers: (1) one anchor program owns the care bundle, (2) optional medication add-on for the second Rx lane on the same Stripe subscription, (3) peptides as separate SKUs with member 20% off — never duplicate the care bundle.

THREE LAYERS — HOW COMPETITIVE STACKING WORKS

Layer	What it is	Pricing	Care included	How to enroll
Layer 1 · Anchor	One full ELEVATED program	TRT \$249 · HRT \$229 · GLP-1 sema \$349 · GLP-1 tirz \$449	RN check-ins · messaging · quarterly labs · primary Rx	Elevated Combo Selector — anchor tile
Layer 2 · Med add-on	Second Rx lane · same subscription	+TRT \$149 · +HRT \$129 · +sema \$249 · +tirz \$349	Saves \$100/mo vs second full program	Combo Selector — add-on tile · update-subscription-addon
Layer 3+ · Peptides	À la carte · separate SKU(s)	Catalog price · member –20% each line	Recovery stack \$349 bundle only published peptide bundle	Send Payment Link per peptide · physician layers 1–2 at a time
IV membership	ELEVATED IV \$199	Non-Rx · no hormone/GLP combo SKUs	20% off à la carte IV + peptides	Separate from Rx combo — can stack with layer 3 peptides

WHAT ONE CARE BUNDLE INCLUDES (NEVER DUPLICATE ON ADD-ON)

- Monthly RN check-in (both protocols reviewed in one visit)
- Unlimited secure messaging
- Quarterly in-office labs (Expanded panel when GLP-1 is in the mix)
- Physician review and protocol adjustments when clinically indicated

ENROLLMENT PROCESS (PROVIDER DASHBOARD)

1. \$79 Wellness Assessment + baseline labs (\$199 hormones · \$299 if GLP-1 in mix)
2. Provider review — document all lanes: weight, hormones, recovery, vitality, metabolic adjuncts
3. Pick anchor = primary clinical goal (weight → GLP-1 anchor; hormones → TRT/HRT anchor)
4. If second Rx lane indicated → select medication add-on in Elevated Combo Selector (one subscription, two line items)
5. Send combo checkout link OR update existing subscription via update-subscription-addon
6. Peptides (layer 3): after consent + gates → separate Send Payment Link per SKU (member –20% each line)
7. Quote total monthly = combo total + sum of peptide lines (show math on paper)
8. Chart: elevated_program (anchor) + elevated_program_addon + peptide SKUs in care plan
9. Staging OK: physician may start anchor only; add medication add-on after 8–12 weeks stable

ALWAYS

- "One visit, one lab cadence, both medications — you save \$100/month vs two separate programs."
- "Your anchor program includes RN check-ins, quarterly labs, and messaging. The add-on is medication only."
- "Peptides bill separately at member pricing — we layer them after your core protocols are stable."
- Use Elevated Combo Selector in provider portal — do not manually price-match in Stripe

NEVER

- Enroll two full ELEVATED programs for the same patient — always anchor + add-on (\$100/mo lost + duplicate visits)
- Fold peptides into the combo subscription or invent custom bundle prices — leadership approval only
- Stack additional discounts on top of member 20% on peptides
- Say plus pharmacy costs on TRT/HRT/GLP-1 anchor or add-on lines
- Skip Expanded labs when GLP-1 is in the combo — one draw covers both lanes

MARGIN GUARDRAILS

- Medication add-ons priced at full program minus \$100 — preserves ~30%+ gross margin on drug COGS
- Peptides: catalog price only; member discount = 20% per line — no extra stacking
- Recovery stack (\$349) is the only published peptide bundle SKU — saves vs \$498 à la carte BPC+TB
- If anchor + add-on + 2 peptides feels high, stage peptides — do not discount the combo

Dual-lane combos — anchor + medication add-on

Pick one anchor + optional add-on. Totals are symmetric — anchor order does not change the bill. Save \$100/mo vs two full programs.

Combo	Total/mo	Add-on line	Savings	Onboarding labs
ELEVATED GLP-1 · Semaglutide	\$349/mo	—	Anchor only	\$299 once at start
ELEVATED GLP-1 · Semaglutide + TRT medication add-on	\$498/mo	+\$149/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED GLP-1 · Semaglutide + HRT medication add-on	\$478/mo	+\$129/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED GLP-1 · Tirzepatide	\$449/mo	—	Anchor only	\$299 once at start
ELEVATED GLP-1 · Tirzepatide + TRT medication add-on	\$598/mo	+\$149/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED GLP-1 · Tirzepatide + HRT medication add-on	\$578/mo	+\$129/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED TRT	\$249/mo	—	Anchor only	\$199 once at start
ELEVATED TRT + GLP-1 semaglutide medication add-on	\$498/mo	+\$249/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED TRT + GLP-1 tirzepatide medication add-on	\$598/mo	+\$349/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED HRT	\$229/mo	—	Anchor only	\$199 once at start
ELEVATED HRT + GLP-1 semaglutide medication add-on	\$478/mo	+\$249/mo	Save \$100/mo vs two full programs	\$299 once at start
ELEVATED HRT + GLP-1 tirzepatide medication add-on	\$578/mo	+\$349/mo	Save \$100/mo vs two full programs	\$299 once at start

TRIPLE-SERVICE SCENARIOS (COMBO + PEPTIDES)

Patient scenario	Combo/mo	Peptides	Steady state	Staff script
Man · weight loss + TRT + recovery (BPC/TB stack)	\$498/mo	BPC-157 / TB-500 Recovery Stack: \$349 (\$279 member)	\$498/mo combo · stack billed per fill cycle	GLP-1 semaglutide program with TRT medication add-on — \$498/mo all-in for both Rx lanes. Recovery stack is a separate one-time fill; member saves 20%.
Woman · weight loss + HRT + sermorelin (vitality)	\$578/mo	Sermorelin Injection: \$149 (\$119 member)	\$697/mo steady state	Tirzepatide anchor with HRT medication add-on — \$578/mo. Sermorelin layers on as its own subscription once physician clears; member price \$119/mo.
Man · TRT anchor + semaglutide + CJC/Ipamorelin	\$498/mo	CJC-1295/Ipamorelin: \$179 (\$143 member)	\$641/mo steady state	TRT-led combo with semaglutide add-on — \$498/mo symmetric either anchor order. CJC/Ipamorelin added after stability review.
Man · TRT + tirzepatide + BPC-157 (ongoing recovery fill)	\$598/mo	BPC-157 fill: \$249 (\$199 member)	\$797/mo steady state	Highest-demand men's stack — \$598/mo for TRT + tirzepatide medication lanes. BPC is consult-gated fill, not in the combo.

LAYER 3 — PEPTIDES (À LA CARTE ON TOP OF COMBO)

Peptides never duplicate the care bundle. Bill as separate SKUs after consult-gated review. Active ELEVATED members save 20% on each peptide line.

- Physician layers 1–2 peptides at a time after anchor ± add-on is stable.
- Recovery stack (BPC + TB) = \$349 / \$279 member — only published peptide bundle.
- Research Peptide Consent + malignancy screen for Cat 2 compounds.
- Retatrutide is NOT a casual peptide add-on — GLP-1 lane only, physician-gated.

ELEVATED PROGRAMS (MONTHLY, ALL-INCLUSIVE)

Program	Price	Medication	Labs	Key notes
ELEVATED IV	\$199/mo	None (IV-only)	Not included	2 signature drips/mo · 20% off add-ons · priority booking
ELEVATED HRT	\$229/mo	Bi-Est + progesterone (+ T cream if Rx)	Quarterly Comprehensive (\$199 value)	Cream only — no troches
ELEVATED TRT	\$249/mo	Testosterone cream (daily)	Quarterly Comprehensive (\$199 value)	No injections · no anastrozole · no HCG
ELEVATED GLP-1	\$349/mo · \$449/mo	Compounded semaglutide OR tirzepatide	Quarterly Expanded (\$299 value)	Price locked to molecule — titration does not change monthly rate

COMBO MEDICATION ADD-ONS (STACK ON ANCHOR PROGRAM)

Add-on	Price	Note
TRT	+\$149/mo	Medication only — no duplicate RN/labs/messaging
HRT	+\$129/mo	Medication only — no duplicate RN/labs/messaging
GLP-1 Semaglutide	+\$249/mo	Medication only — no duplicate RN/labs/messaging
GLP-1 Tirzepatide	+\$349/mo	Medication only — no duplicate RN/labs/messaging

NOT INCLUDED IN ANY MEMBERSHIP

- Initial \$79 Wellness Assessment + baseline labs (\$199 or \$299)
- Patient-requested \$149 Medical Review
- À la carte beyond plan inclusions (members get 20% off)

VISITS & LABS

Service	Price	Notes
Wellness Assessment	\$79	RN intake · universal front door
Maintenance Visit	\$79	RN follow-up under standing orders

Expanded Panel	\$299	GLP-1 / metabolic baseline · member quarterly on GLP-1

CHARGE CHECKPOINTS

ID	When	Amount
C-01	Wellness Assessment booked	\$79
C-02	Lab panel drawn	\$199 or \$299
C-03	Program enrollment	\$199–\$449/mo
C-04	À la carte med fill	Per SKU — \$0 if included in their plan
C-05	IV Lounge walk-in	Drip \$139–\$169 · boosters \$25–\$50
C-08	Rebooking fee	\$99

Default paths: women → Bi-Est cream + progesterone (ELEVATED HRT). Men → testosterone cream daily (ELEVATED TRT). No injectable TRT, pellets, anastrozole, or HCG.

Protocol	What it does	Dosing summary	Program price	À la carte member	Labs / notes
Men — ELEVATED TRT (testosterone cream)	Lab-guided testosterone optimization; daily transdermal cream titrated to labs	50–100 mg testosterone daily transdermal (physician-titrated to labs) · Adjust q6–8 weeks per total T, free T, E2, hematocrit · Daily	\$249/mo all-inclusive	Medication included — never say plus pharmacy	Quarterly Comprehensive labs included
Women — ELEVATED HRT (Bi-Est + progesterone)	Lab-guided bioidentical hormone balance; cream + oral progesterone	Bi-Est 0.5–1.5 mg daily transdermal · Titrate per symptoms and labs q8–12 weeks	\$229/mo all-inclusive	Medication included · cream only — no troches	Quarterly Comprehensive labs included
Testosterone Fill	À la carte fill outside program	Physician-directed	\$179	\$143	Included on ELEVATED TRT
Bi-Est Cream Fill	À la carte fill outside program	Physician-directed	\$109	\$87	Included on ELEVATED HRT
Progesterone Fill	À la carte fill outside program	Physician-directed	\$99	\$79	Included on ELEVATED HRT

Weight loss (GLP-1) — dosing & pricing

Program price locked to molecule — titration does not change monthly rate. Retatrutide: physician-gated within GLP-1 lane only — never advertise.

Product	Purpose	Dosing	Price	Member	Notes
ELEVATED GLP-1 · Semaglutide	A weekly injection that reduces appetite and improves blood sugar. We start low and increase slowly so nausea stays manageable.	SubQ · Once weekly · 1–4: 0.25 mg (5 units) → 5–8: 0.5 mg (10 units) → 9+: 1 mg (20 units) maintenance · Maint: 1 mg weekly (typical program target) · Cycle: 12–68 weeks; reassess every 12 weeks	\$349/mo	Included in program	All-inclusive program
ELEVATED GLP-1 · Tirzepatide	A dual-action weekly injection for weight and metabolic health. We escalate every four weeks based on how you feel.	SubQ · Once weekly · 1–4: 2.5 mg (50 units) → 5–8: 5 mg (100 units; may split injection) → 9–12: 7.5 mg (150 units; split) → 13+: 7.5–15 mg weekly per tolerance · Maint: 7.5 mg weekly (common maintenance) · Cycle: 12–52 weeks	\$449/mo	Included in program	All-inclusive program
Semaglutide Single Fill	A weekly injection that reduces appetite and improves blood sugar. We start low and increase slowly so nausea stays manageable.	SubQ · Once weekly · 1–4: 0.25 mg (5 units) → 5–8: 0.5 mg (10 units) → 9+: 1 mg (20 units) maintenance · Maint: 1 mg weekly (typical program target) · Cycle: 12–68 weeks; reassess every 12 weeks	\$299	\$239	Single fill · non-member / between programs
Tirzepatide Single Fill	A dual-action weekly injection for weight and metabolic health. We escalate every four weeks based on how you feel.	SubQ · Once weekly · 1–4: 2.5 mg (50 units) → 5–8: 5 mg (100 units; may split injection) → 9–12: 7.5 mg (150 units; split) → 13+: 7.5–15 mg weekly per tolerance · Maint: 7.5 mg weekly (common maintenance) · Cycle: 12–52 weeks	\$399	\$319	Single fill
Retatrutide Monthly (Gated)	An investigational weekly injection that targets appetite, insulin sensitivity, and fat metabolism. Gated and physician-selected only within the GLP-1 program under the GLP-1 consent — never advertised, never the lead.	SubQ · Once weekly · 1–4: 1 mg (10 units) → 5–8: 2 mg (20 units) → 9–12: 3–4 mg (30–40 units) → 13+: 4–8 mg per metabolic protocol · Maint: 4 mg weekly (lowest effective dose; physician titration only) · Cycle: Reassess per physician	\$499/mo	\$399	Provider-gated · GLP-1 consent · never advertise

All peptides — purpose, dosing & pricing

PEPTIDES · V2.1.0

Consult-gated. Research Peptide Consent for Cat 2 compounds. Reconstitution: 2 ml bacteriostatic water unless pharmacy label differs.

Peptide	What it does	Dosing	Non-member	Member (–20%)	Billing	Notes
Sermorelin Injection	A nightly injection that supports your body's natural growth hormone rhythm — often paired with IV NAD+ add-ons at the lounge when your provider selects both.	SubQ · Daily · (At bedtime (aligns with natural GH pulse)) · 1–4: 100–200 mcg (2–4 units) → 5–12: 200–300 mcg (4–6 units) daily · Maint: 200 mcg at bedtime · Cycle: 8–12 weeks on, 4–6 weeks off	\$149/mo	\$119	Monthly sub	Consult-gated · monthly
CJC-1295/Ipamorelin	A combined nightly injection that supports lean mass and recovery during weight loss — used in phase 3 of our metabolic program.	SubQ · 1–2× daily · (Bedtime or post-workout) · 1–4: 100 mcg each (2 units) once daily → 5–12: 200 mcg each (4 units) once or twice daily · Maint: 200 mcg CJC + 200 mcg Ipamorelin · Cycle: 8–16 weeks on, 4–6 weeks off	\$179/mo	\$143	Monthly sub	Consult-gated · monthly
Tesamorelin	Targets visceral fat and supports lean mass — especially useful when you're losing weight and want to protect muscle.	SubQ · Daily, 5–7 nights/week · (Bedtime) · 1–4: 1 mg (20 units) → 5+: 1–2 mg (20–40 units) 5 nights/week · Maint: 2 mg nightly x 5 nights/week · Cycle: 8–24 weeks	\$399/mo	\$319	Monthly sub	Consult-gated · monthly
GHK-Cu Topical	Skin, collagen, and scalp support — topical peptide for aesthetic goals	Topical · daily AM/PM per pharmacy label	\$149/mo	\$119	Monthly sub	Consult-gated · monthly
PT-141 (Bremelanotide)	An as-needed injection for libido support — not daily. We start at 1 mg and adjust based on response.	SubQ · As needed, max 1x/day · (2–4 hours before anticipated activity) · 1–4: 1 mg (20 units) up to 3x/week → 5+: 1–2 mg as needed, max 3x/week · Maint: 1–2 mg as needed · Cycle: 4–12 weeks, then 2–4 week break	\$225	\$180	One-time fill (PRN protocol)	Sexual wellness · PRN libido · not daily research peptide
BPC-157	A recovery peptide your provider may select to support tissue recovery after injury or intense training.	SubQ (near injury site if localized) · Daily or 5–7 days/week · 1–2: 250 mcg daily → 3–12: 500 mcg daily · Maint: 500 mcg daily · Cycle: 6–12 weeks on, 4–6 weeks off	\$249	\$199	One-time fill	One-time fill · Research Peptide Consent
TB-500 (Thymosin Beta-4)	A weekly recovery peptide your provider may select for tissue mobility and training recovery support.	SubQ · Weekly · 1–6: 2–2.5 mg subQ weekly (loading) → 7–12: 2 mg weekly maintenance if extended · Maint: 2 mg weekly · Cycle: 6–12 weeks typical; physician-defined	\$249	\$199	One-time fill	One-time fill · Research Peptide Consent
BPC-157 / TB-500 Recovery Stack	A recovery peptide your provider may select to support tissue recovery after injury or intense training.	SubQ (near injury site if localized) · Daily or 5–7 days/week · 1–2: 250 mcg daily → 3–12: 500 mcg daily · Maint: 500 mcg daily · Cycle: 6–12 weeks on, 4–6 weeks off	\$349	\$279	One-time bundle	Consult-gated · Research Peptide Consent · never say “Wolverine” to patients
SS-31 (Elamipretide)	Supports mitochondrial function and energy — added once you've tolerated the anchor GLP injection in the metabolic program.	SubQ · Daily · 1–2: 2–4 mg daily → 3+: 4–10 mg daily per tolerance · Maint: 4 mg daily (clinical trial reference dose) · Cycle: 4–12 weeks	\$249/mo	\$199	Monthly sub	Provider-only · standalone (no bundled metabolic program)
AOD-9604	A fat-metabolism adjunct used in later phases when plateaus occur — physician-directed only.	SubQ · Daily · (Morning, empty stomach) · 1–12: 250–500 mcg daily · Maint: 250–500 mcg daily · Cycle: 4–12 weeks on, 4 weeks off	\$129/mo	\$103	Monthly sub	Provider-only · standalone (no bundled metabolic program)
SLU-PP-332	An optional metabolic adjunct for plateau support — only with physician approval.	SubQ · Daily · 1+: Per physician protocol · Maint: Physician-directed · Cycle: Physician-directed	\$99/mo	\$79	Monthly sub	Provider-only · standalone (no bundled metabolic program)
5-Amino-1MQ	Metabolic adjunct — physician-directed plateau support	Per physician protocol	\$119/mo	\$95	Monthly sub	Provider-only · standalone (no bundled metabolic program)

POLICY REMINDERS

- Medication is INCLUDED in ELEVATED TRT / HRT / GLP-1 — never say “plus pharmacy costs.”
- NAD+ is ONLY the \$50 IV booster push — no peptide NAD+, no standalone NAD+ infusion.
- Ketamine / Spravato — not offered (legacy).
- Retatrutide — physician-selected within GLP-1 lane only; full consent; never headline or advertise.
- Injectable TRT (cypionate) — not offered. Anastrozole and HCG — not offered.
- Cash pay · no insurance billing · itemized receipts & superbills on request.
- Benefits end on membership cancel: quarterly labs revert to full price; 20% discount ends.

DO SAY

- "Our ELEVATED programs bundle your medication, RN check-ins, quarterly labs, and messaging — one price."
- "Every new patient starts with a \$79 Wellness Assessment unless they're IV walk-in only."
- "Active members get 20% off à la carte — IV, peptides, extra labs."
- "We are cash-pay; we can provide itemized receipts and superbills on request."
- "IV Lounge is walk-in — no consult required for drips and pushes."

NEVER SAY

- "Plus pharmacy costs" or "medication billed separately" on TRT/HRT/GLP-1.
- Promise a specific drug or dose before labs + physician review.
- Offer ketamine, Spravato, injectable TRT, anastrozole, HCG, or pellets.
- Advertise or lead with retatrutide — physician-gated only.
- Standalone NAD+ infusion or peptide NAD+ — NAD+ is the \$50 IV booster only.
