

Memberships

PULL-OUT REFERENCE

Monthly all-inclusive programs. One anchor owns RN visits, quarterly labs, messaging.

WHAT IT IS	WHAT IT DOES	HOW IT'S PRESCRIBED	PATIENT COST
ELEVATED TRT	Men's testosterone optimization — energy, libido, body composition.	Testosterone cream, daily. Quarterly Comprehensive labs. No injections/anastrozole/HCG.	\$249/mo — all-inclusive
ELEVATED HRT	Women's hormone balance — mood, sleep, libido, symptom relief.	Bi-Est + progesterone cream (T cream if indicated). Quarterly Comprehensive labs. Cream only.	\$229/mo — all-inclusive
ELEVATED GLP-1	Medical weight management with appetite/metabolic support.	Compounded semaglutide OR tirzepatide, weekly SubQ. Quarterly Expanded labs.	\$349/mo (sema) · \$449/mo (tirz)
ELEVATED IV	IV-focused membership — hydration, recovery, energy.	2 signature drips/mo + 20% off add-ons + priority booking. No Rx medication.	\$199/mo — IV only

Remember: Multiple services? ONE anchor program + medication add-on (saves \$100/mo vs two full programs). Never enroll two full programs.

Hormones

PULL-OUT REFERENCE

Cream-based hormone optimization. Default: men → TRT, women → HRT.

WHAT IT IS	WHAT IT DOES	HOW IT'S PRESCRIBED	PATIENT COST
Testosterone Fill	Daily testosterone for men — energy, libido, lean mass, mood.	Compounded cream, applied daily. Baseline + quarterly labs.	\$179 fill · \$143 member · included on ELEVATED TRT
Bi-Est Cream Fill	Estradiol/estriol for women — hot flashes, mood, vaginal/skin health.	Compounded cream, daily. Paired with progesterone. Quarterly labs.	\$109 fill · \$87 member · included on ELEVATED HRT
Progesterone Fill	Balances estrogen — sleep, mood, endometrial protection.	Compounded, daily or cyclic per protocol. Quarterly labs.	\$99 fill · \$79 member · included on ELEVATED HRT

Remember: Cream only — no pellets, no injectable TRT, no anastrozole, no HCG in standard programs.

Weight Loss (GLP-1)

PULL-OUT REFERENCE

Compounded GLP-1 therapy. Program price locked to molecule — titration does not change rate.

WHAT IT IS	WHAT IT DOES	HOW IT'S PRESCRIBED	PATIENT COST
ELEVATED GLP-1 · Semaglutide	Appetite suppression + glucose/metabolic support for weight loss.	SubQ Once weekly · maint 1 mg weekly (typical program target)	\$349/mo program (all-inclusive)
ELEVATED GLP-1 · Tirzepatide	Dual GIP/GLP-1 — stronger appetite + metabolic effect.	SubQ Once weekly · maint 7.5 mg weekly (common maintenance)	\$449/mo program (all-inclusive)
Semaglutide Single Fill / Tirzepatide Single Fill (single fill)	One-off fill between programs / non-member.	Weekly SubQ per protocol. Not the all-inclusive program.	\$299 sema · \$399 tizr (member pricing applies)
Retatrutide Monthly (Gated)	Triple-agonist — physician-gated only.	SubQ Once weekly · maint 4 mg weekly (lowest effective dose; physician titration only). GLP-1 lane only, provider-gated.	\$499/mo · NEVER advertise — provider-initiated only

Remember: One lab draw (Expanded) covers GLP-1 + any hormone lane in a combo. Use additive compound.

Peptides

PULL-OUT REFERENCE

À la carte, consult-gated. Layer on top of a program. Members save 20% per line.

WHAT IT IS	WHAT IT DOES	HOW IT'S PRESCRIBED	PATIENT COST
Sermorelin / CJC-1295 + Ipamorelin	Growth-hormone support — recovery, sleep, body composition.	SubQ, typically nightly. Consult-gated. Monthly.	Per catalog · member –20% · billed as separate SKU
BPC-157 / TB-500 (Recovery Stack)	Tissue repair, recovery, inflammation support.	SubQ (near injury site if localized) Daily or 5–7 days/week · maint 500 mcg daily. Research Peptide Consent required.	\$349 stack (vs ~\$498 à la carte) · the only published peptide bundle
Tesamorelin	Targeted fat/metabolic support (GHRH analog).	SubQ per protocol. Consult-gated. Monthly.	Per catalog · member –20% · separate SKU
GHK-Cu (topical)	Skin/collagen support, cosmetic.	Topical per label. Consult-gated.	Per catalog · member –20% · separate SKU

Remember: Peptides NEVER fold into a combo subscription. No discount stacking on top of member 20%. Cat-2 compounds need consent + screen.
